I'm self-employed. What income benefits can I get?

Do you pay yourself a salary with payroll deductions including EI premiums?

Yes: It sounds like you may be eligible for EI Sickness benefits. See the information above.

No: You could apply for the Canada Emergency Response Benefit. See the information above.

AS OF APRIL 6, THERE WILL JUST BE ONE APPLICATION SITE FOR EI AND CERB. YOU WON'T HAVE TO PICK BETWEEN THEM.

Good to know: Self-employed workers can opt-in to Employment Insurance special benefits including Sickness benefits. But you have to pay-in for 12 months before collecting benefits. If you have a computer, you can learn more about how to apply to be covered by the EI special benefits here:

<https://www.canada.ca/en/services/benefits/ei/ei-self-employed-workers.html>

Do you have children?

Yes: Make sure you are receiving any Canada Child Benefit and GST Credit that you are entitled to. These are going to be topped up soon. See the information above.

No: Depending on your income, you might still qualify for the GST Credit or the Canada Workers' Benefit. If you have a computer, you can check online here:

<https://www.canada.ca/en/revenue-agency/services/child-family-benefits.html>

I'm a college or university student and I was counting on my summer job to pay tuition in the fall. What do I do?

Did you work for pay (including self-employment or gig-work) in 2019 or in the last 12 months?

Yes

Did you make \$5K in that work (including self-employment) or more

No, but I was planning to start working this summer *in 2019 or in the last 12 months?*

Yes No

Since March 15, have you stopped working for 14 days in a row? Yes No, I was only planning to start work in the summer

You might be eligible for the **Canada Emergency Relief Benefit**. See the information above.

It sounds like you've had other resources to help you cover your essential costs like shelter, food and more. Are those resources (help from parents, education savings, student loans) still available to you? Right now, most governments are trying to help people in emergencies who have lost their regular income to support themselves and their families.

Have you considered applying for student financial assistance to help you with the costs of your education? You might be able to get grants (you don't pay back at all) and low-cost loans (you don't pay back until you finish school) from the Government of Canada or your province/territory.

You can get more information here:

<https://www.canada.ca/en/services/benefits/education/student-aid/grants-loans.html>

Have you contacted the student financial office of your college or university to ask what they are doing to help students who are worried about how to pay tuition and other fees? Look for the email address online because it is unlikely anyone is in the campus office right now. You can also contact the student association of your university or college and ask for their help in getting answers.

I'm having trouble keeping up with my rent. Is there help for me?
